

COMPACTION PLATE SERVICE

Have your compaction plate serviced by a professional who will ensure it is operating at peak performance for trouble free compacting, to save you time and money.

A standard service entails;

- ✓ Visual inspection of the whole compaction plate
- ✓ Check engine oil and replace or top up if required
- ✓ Check and clean air filter or replace it if required
- ✓ Check the engine RPM and adjust it as required
- ✓ Check the spark plug and replace it if required
- ✓ Check the muffler and mountings
- ✓ Check the starting mechanism, the rope and all the starter components
- ✓ Check and lubricate throttle controls and cables
- ✓ Check exciter if fitted
- ✓ Check all anti vibration mounts
- ✓ Check the plate for wear or cracks
- ✓ Sharpen blades or replace if required
- ✓ Check all fasteners and tighten if required
- ✓ Start, test and wash the machine.

It is a complete and thorough service of your machine.
