

LAWN EDGER SERVICE

Have your lawn edger serviced by a professional who will ensure it is operating at peak performance for trouble free cutting, to save you time and money.

A standard service entails;

- Visual inspection of the whole edger
- Check the spark plug and replace if required
- Check and clean air filter or replace it if required
- Check and clean the fuel filter and replace as required
- Clean the fuel tank
- Check the starting mechanism, the rope and all the starter components
- Clean the spark arrestor screen and replace if required
- Check the muffler and mountings
- Check the operation and condition of the throttle trigger and control grip
- Check the operation of the safety throttle lock
- Adjust the high and low speeds of the carburettor, set the maximum RPM and readjust the idle
- Check the blade guard and blade for wear
- Check gearbox lubrication
- Inspect the rubber vibration buffers (if fitted) and replace if required
- Clean the cylinder fins
- Start, test and wash the machine.

It is a complete and thorough service of your machine.
