

# POST HOLE DIGGER SERVICE

Have your post hole digger serviced by a professional who will ensure it is operating at peak performance for trouble free digging, to save you time and money.

A standard service entails;

- Visual inspection of the post hole digger and auger
- Inspect and clean the air filter and replace if required
- Check the operation of the throttle trigger
- Inspect the control grip
- Check operation of the safety throttle lock
- Clean the fuel filter and replace it if required
- Clean the fuel tank
- Adjust high and low speed jets for the carburettor
- Set the maximum RPM
- Readjust idle
- Check spark plug and replace if required
- Inspect the anti vibration mounts
- Clean the cylinder fins, cooling inlets and spark arrestor screen
- Clean and check the operation of the brake
- Check gear box lubrication
- Check and tighten all fasteners
- Check the auger, auger blade and pilot tip and replace blade, bolts or tip if required
- Start, test and wash the machine.

It is a complete and thorough service of your machine.
