

PUSHMOWER SERVICE

Have your push mower serviced by a professional who will ensure it is operating at peak performance for trouble free cutting, to save you time and money.

A standard service entails;

- Visual inspection of the whole mower
- Check engine oil and replace or top up if required (check the fuel mixture on two strokes)
- Check and clean air filter or replace it if required
- Check the engine RPM and adjust it as required
- Check the spark plug and replace it if required
- Check the muffler and mountings
- Check the starting mechanism, the rope and all the starter components
- Check and lubricate throttle controls and cables
- Check and adjust the mower deck
- Check all the wheels and bearings and replace or adjust as required
- Check the cutting blade disc for wear, cracks or unsafe operation
- Sharpen blades or replace if required
- Check blade bolts and nuts and replace if required
- Check all fasteners and tighten if required
- Start, test and wash the machine.

It is a complete and thorough service of your machine.
