

SHREDDER SERVICE

Have your garden shredder serviced by a professional who will ensure it is operating at peak performance for trouble free shredding, to save you time and money.

A standard service entails;

- Visual inspection of the whole shredder
- Check the engine RPM and adjust it as required
- Check and clean air filter/s or replace it if required
- Check and clean the fuel filter and replace as required
- Check the spark plug and replace it if required
- Check the muffler and mountings
- Check the starting mechanism, the rope and all the starter components
- Check and lubricate throttle controls and cables
- Check the cutting blades and sharpen or replace if required
- Check the flails and flail rods and adjust or replace if required (if applicable)
- Check the cutting blade disc for wear, cracks or unsafe operation
- Check the blade housing
- Check, clear and clean the loading funnel
- Check and clear the discharge chute
- Check the chassis
- Start, test and wash the machine.

It is a complete and thorough service of your machine.
